

Child Photography Policy

Middleton Rangers Football Club Child Photography Policy

Recommended Guidelines

Middleton Rangers in line with FA guidelines has developed a policy in relation to the use of photographic and video material used in conjunction with club activities, as well as adopting FA guidance in relation to media materials.

As a club we endeavour to adopt a safeguarding stance towards our players but understand that there has been much talk about who is allowed to take pictures of children (under 18s) playing sport and in particular what parents/carers are permitted to do.

Therefore, as parent you will be asked at the beginning at each season (normally club registration evening) to complete a consent form, stating that you are agreeable to photographic images of your child been taken for the use of club purposes only.

Such use may include the following:

- Photo's displayed on the club website – as we have a photo gallery showcasing individual teams
- publication of photo's for submission to local new agencies
- Display of photo's at awards and presentation evenings

The club have also adopted FA guidelines in relation to use of photographic material and the following information states that:

The FA would like to assure parents, carers, coaches, spectators, players and local media that we encourage the taking of appropriate images of children in football.

However in order to minimise the risk to children, individuals need to be aware of potential risks and the FA has devised the following information to help avoid the following:

Potential risks

- The inappropriate use, adaptation or copying of images for use on child abuse websites on the internet (often incorrectly referred to as pornography sites)
- The identification of children when a photograph is accompanied by significant personal information that will assist a third party in identifying the child. This can lead, and has led, to children being 'groomed'
- The identification and locating of children in inappropriate circumstances which include:

Child Photography Policy

- where a child has been removed from his/her family for their own safety;
- where restrictions on contact with one parent following a parental separation exist e.g in domestic violence cases;
- in situations where a child may be a witness in criminal proceedings; or
- other safeguarding children concerns

It's important to remember the majority of images taken are appropriate and taken in good faith. If we take the following simple measures we can help to ensure the safety of children in football.

Common sense considerations to ensure everyone's safety

Do:

- Share The FA's guidance on taking images with all parents, carers and members when they join the club
- Ensure the club has parental consent to use a player's image if it is to be used in the public domain e.g. club website or newspaper article. This is essential in relation to point 3 below
- Ensure that any child in your club who is under care proceedings, is protected by ensuring that their image is not placed in the public domain. This can be done by using a Consent Form, so that parents/carers can identify whether this applies to children in their care
- Focus on the activity rather than the individual
- Ensure all those featured are appropriately dressed (a minimum of vest or shirt and shorts)
- Aim to take pictures which represent the broad range of youngsters participating safely in football e.g. boys and girls, disabled people, ethnic minority communities.

Don't:

- publish photographs with the full name(s) of the individual(s) featured unless you have written consent to do so and you have informed the parents as to how the image will be used
- use player profiles with pictures and detailed personal information on websites
- use an image for something other than that which it was initially agreed, e.g. published in local press when initially produced for a clubhouse commemorative picture
- allow images to be recorded in changing rooms, showers or toilets – this includes the use of mobile phones that record images.

Child Photography Policy

Filming as a coaching aid

The FA advises that coaches using videoing as a legitimate coaching aid should make parents/carers and players aware that this will be part of the coaching programme. Care should be taken when storing the videos.

Remember

- It's not an offence to take appropriate photographs in a public place even if asked not to do so
- No one has the right to decide who can and cannot take images on public land
- If you have serious concerns about a possible child protection issue relating to the recording of images then call the Police. This action should only be taken where you believe that someone may be acting unlawfully or putting a child at risk
- The land or facility owner can decide whether or not photography and or videoing at football activities will be permitted when carried out on private land. However you need to make this known before allowing individuals access to the private property. If they do not comply then you may request that they leave
- Try not to use images that include individuals wearing jewellery (as wearing jewellery whilst playing is contrary to the Laws of the Game as well as being a health and safety issue).

Commissioning professional photographers and the local media

If you are commissioning professional photographers or inviting the press to cover a football activity, ensure you and they are clear about each other's expectations.

The key is to plan ahead and communicate early on.

- Provide a clear brief about what is considered appropriate in terms of content and behaviour
- Inform them of your club's commitment to safeguarding children and young people. Establish who will hold the recorded images and what they intend to do with them, e.g. place on a website for sale, distribute thumb nails to the club to co-ordinate sales
- Issue the professional photographer with identification, which must be worn at all times Inform participants and parents or carers prior to the event that a professional photographer will be in attendance and ensure you have established that no under 18s will be compromised due to safeguarding children concerns if their image is taken – remember this can be done by using a Consent Form at the start of the season.
